One thousand Carranza troops have been ordered into the Big Bend country on the Mexican side of the boundary by Gov. Espinosa Mirales, of the state of Coahuila, a message received from Saltillo at the Carranza consulate Tuesday morning.

The message states that as soon as the news that the bandits who had attacked the Americans at Boquillas, had crossed into the state of Coahuila, Gov. Mirales ordered detached cavalry forces of the Carranza commands to proceed in pursuit of the bandits and to capture or kill them wherever located.

TEXAS MEXICANS HELPED RAIDERS

O. G. Compton Tells of Raid and of Finding Son's Body; Seeks Revenge.

BY A. M. BRANSON.
Alpine, Texas, May 9.—Sergeant Smythe in command at Glen Springs on last Friday; O. G. Compton and private Monroe Tyree, the men who have been missing since that night, were picked up along the road by George Benson and brought to Alpine Monday night. The car which they had left Glen Springs had broken down.

Compton's story is of much interest. He is convinced that Mexicans of the settlements were in league with the invaders, both on account of masks worn by many of the raiders and because not a dog except his own barked in warning.

Rescues Private Tyree.
He says he fired 150 rounds at the invaders from his house and then made his escape to the hills at 4 o'clock on Saturday morning. He crept back to find his children, but saw no Mexicans in and about the house eating and feeding their horses. He made his way to the adobe hut, where the troopers had fought so gallantly, and there he found private Tyree, almost buried alive in the debris of the fallen roof. He rescued him and carried him on his back to the shelter of the hills.

Without food or water Compton and Tyree spent a terrible day and night, not daring to return to Glen Springs until on Sunday when they saw the autos of the Marathon posse.

Finds Murdered Child.
When Compton went with the posse to his house Compton found the body of his nine year old son. The child had been wounded in the leg, stomach and chest, and his head battered in. The blood stained floor of the room told a pitiful tale of the child's frantic efforts to escape his assassins.

Compton has arrived to join the pursuing posse and avenge the murder of his child.

Body of Carranza Captain Found.
The posse found the dead body of a Carrancista captain in the residence of a woman of the Hills was factory. Papers found on him proved his political sympathies, but did not give his name. The only Mexican who remained in Glen Springs, refused to identify him, and is said later to have broken loose and drowned himself in the river. The posse found from 45 to 50 pools of blood around the was factory and from the stench that was issuing from the still burning beams of sandella, stored there, they think that the Mexicans must have made the place the funeral pyre of their dead.

Sergeant Smythe Badly Wounded.
Sergeant Smythe, who is too severely burned to join in the pursuit, told new details of the fight. Two soldiers, who stopped to pull on their shoes when the tent from which they first fought, was burned, were cut off from their comrades in the adobe house, so they fought from the shelter of a haystack and when the house was burned, they got away to the hills and safety.

Two Americans Are Murdered.
The raiders stood at the windows and shot through the flames of the house, but the Mexicans had built against the door.

The posse of 25 men of Marathon, led by Sheriff Wallin, and 20 troopers under Capt. Capar Cole are reported to have crossed into Mexico at Boquillas on Monday morning.

HOW TO REDUCE YOUR WEIGHT

A SIMPLE, SAFE, RELIABLE WAY
People who are overburdened with superfluous fat, know only too well, the discomfort and ridicule that over-eat people have to bear.

If you are carrying around five or ten pounds of unnecessary fat you are unnecessarily weakening your vital organs and are carrying a burden which destroys the beauty of your figure.

There is no need of anyone suffering from superfluous fat. If you want to reduce your weight in a simple, safe and reliable way, without starvation diet or tiresome exercise, here is a test worth trying. Spend as much time as you can in the open air, breathe deeply and get from Kelly & Folland or The People's Drug Store, or any good drugist a box of oil of korein capsules; take one after each meal and one before retiring at night.

Weigh yourself once a week so as to know just how fast you are losing weight and don't leave off the treatment or even skip a single dose until you are down to normal.

Oil of korein is absolutely harmless, is pleasant to take, and helps digestion. Even a few days treatment has been reported to show a noticeable reduction in weight, footprints become lighter, your skin seems easier and a lighter and more buoyant feeling takes possession of your whole being.

Every person who suffers from superfluous fat should try this treatment a trial.—Advertisement.

CARRANZISTAS UNLOAD TRAIN

Supplies for Alvarado Mines Removed From Cars in Juarez; Cars Needed.

A train load of supplies for the Alvarado mines, at Parai, has been delayed in Juarez by the military authorities, and the supplies have been removed from the cars. The train had been parked upon one of the side tracks for a number of days, and on Tuesday morning the mining company was advised that the cars would be required for the use of the Constitutional government. At the same time the unloading of the cars began.

A. J. McQuatters, of the mine management, states that he does not infer from this that the supplies have been confiscated, but does not know just how to interpret the act. The box cars, it was stated by the train men, were to be used for troops.

M. M. Feltz, mayor of Juarez, when asked if the military authorities had confiscated the supplies of the Alvarado Mines and Mining company, stated that he could not understand how such a rumor should start, as an act of this kind would be nothing short of mad at this special time; and that the supplies to be confiscated they would not have been taken over in Juarez, but further down in the country.

Glen Springs raid, say that a large number of the Mexican raiders, who attacked them were masks, presumably because they were residents on the American side of the river and were afraid of being recognized.

Mrs. Hart, school teacher at McKinney Springs, was hidden in a wagon by friendly Mexicans. From her shelter she saw the raiders and says she recognized one of them.

The little daughter of the missing O. G. Compton, whose son was killed by the raiders, is said to have been taken into Mexico by her Mexican nurse and is in safety.

Mexicans in the vicinity of Boquillas seem to have been informed in advance of the raid. A halfbreed at Boquillas was told by Mexican friends Friday that the raid was impending, and army officers here have learned. The half breed said Deemer, the storekeeper, was forced to load his stock of goods into a wagon and drive it into Mexico. He heard him threatened with death.

Troops Search For Mexican Band; Find Grave Digger

A report that Mexicans were assembling in the bosque below Washington park Tuesday morning caused a detachment of troops from Fort Bliss, in command of Lieut. D. D. Tompkins, to make a search of the river front in the vicinity of Washington park.

No Mexicans were found in the vicinity of the park or along the river except one lone Mexican digging a grave.

TODAY'S AMUSEMENTS

"JOYCE FAIR" AT THE BLOND.
The clever acting of "Joyce Fair" in the photoplay, "The Little Samaritan," at the Blond today, makes its story of a little girl's goodness of heart full of appealing interest. Thomas Compton plays the old grandfather with a Dickens touch.

The Selig-Trusthouse is a very interesting number today. It shows Gen. Pershing is still on the job in Mexico. Come and see it. U. S. troops on the Santa Fe street. International bridges, custom inspectors, and the "Girl Globe Trotters" recently seen in El Paso, will also be shown in this number. Regular prices will prevail today.—Adv.

THE GERALDINE FAIRBANKS KISS.
One of the things most carefully supervised in the studios of the big motion picture producing companies is that the players who are enacting lovers' roles shall embrace in a manner most decorous in order that all may be pleased and no one offended. In the "Lucky feature," "Maris Ross," showing at the Alhambra today, Geraldine Fairbank, the famous prima donna and grand opera star, gives vent for a moment to real love's embrace. The picture shows how it done, and as a whole the dramatic and emotional effect is obtained, yet in a manner that will be approved by the censors.—Adv.

"THE NEER-DO-WELL."
A large and satisfied audience attended the United States today to see a screen version of Rex Beach's "Neer-Do-Well." The film portrayal of this great novel is staged in 14 dramatic and beautiful reels and is a true picture of the original story. The work of Kathlyn Williams and Wheeler Oakman is the best these famous screen stars have ever done and as a whole the "Neer-Do-Well" is a rare masterpiece. The show starts at 12:15 p. m., 2:30, 4:15, 7:30 and 9:15. The admission is 50 cents.—Adv.

Dandruff Surely Destroys The Hair
Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and itching of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.—Adv.

DR. MAGRUDER CASE DISMISSED

Indictment Against Dentist Thrown Out; Plot to Kidnap Bankers' Sons.

The case against Dr. H. A. Magruder, Werner, Platte, and Jesus Villaseor, indicted last February for a charge of conspiracy to kidnap W. L. Tooley, Jr., son of W. L. Tooley, vice president of the First National bank, has been dismissed by district attorney W. D. Bridgers. A desire on the part of Mr. Tooley and others not to prosecute is given as the reason for the dismissing of the case.

Dr. Magruder Aids Officers.
It was charged in the indictment that Dr. Magruder and Platte and Villaseor conspired to kidnap the young son of Mr. Tooley on February 1, following the return of the indictment Dr. Magruder made a statement to the effect that he heard of the conspiracy and, while pretending to be a party to the plans, was in reality playing the part of a detective and kept the authorities advised of all movements of the conspirators.

\$10,000 Ransom.
According to Dr. Magruder it was also planned to kidnap the young son of Herman Andreas, cashier of the City National bank. The two boys were to be picked up in an automobile on their way home from school and taken to the hills. A ransom of \$10,000 was then to be demanded. All of these details, he stated, were communicated to Mr. Tooley and Mr. Andreas.

When an attempt was made to see Dr. Magruder Tuesday morning, it was stated that he was confined to his bed by illness and could not be seen.

Aren't you about ready to stop "cigarette-shopping"?

You've tried out more different brands of cigarettes than you can remember. It's discouraging. And expensive.

Naturally, you'd stop this "shopping" around—quick—if you could find a cigarette that never grew tiresome.

Fatima is such a cigarette. Men don't simply get Fatimas—they adopt them.

Because they find that Fatimas never grow tiresome.

Fatimas are a SENSIBLE cigarette inasmuch as they are *always* cool and comfortable to the throat and tongue. And they allow you to smoke as you like to smoke—without leaving a trace of "mean" feeling afterward.

Is it any wonder men adopt Fatimas and STICK to Fatimas for their steady smoke?

Surely—you should at least TRY Fatimas.

How We Can Increase Our Weight

THEN people, particularly those who are ten pounds or more under normal weight, and who would like to put on some good healthy stay there flesh will be glad to know that such a result is often made possible by merely enabling the system to extract and assimilate a greater proportion of the flesh and fatmaking elements in our daily meals.

It is said that while thin people eat enough the greater portion of their food goes right through their bodies as waste because their assimilative organs are defective and cannot absorb them.

To correct such a defect and to get 100 per cent strength and fleshmaking efficiency from your food try taking a little Sargol with meals for a few weeks.

Sargol does not of itself make fat but aims to stop food waste and to make your food make fat by making it easier for your assimilative organs to accept the fat and fleshmaking nourishment it contains.

That this principle is correct would seem proved by the many remarkable weight increases being reported by those who tried it. "I have increased 18 lbs. in less than a month," says one man from Colorado. A St. Louis lady writes "gained 15 pounds and still gaining." And there are many more.

The Sargol tablets are small, easily swallowed, produce no disagreeable effects, contain no habit forming drugs, are harmless and not at all expensive as compared with results said to be obtained.

NOTE—Sargol, referred to above is well known as a flesh builder to A. E. Ryan as well as many other of the leading local druggists who furthermore sell it on the positive guarantee, as found in each large package of satisfactory weight increase or money back. In view of this liberal offer and the harmless nature of the remedy, it would seem that all who desire increased weight should be glad to give this method a trial.—Advertisement.
